

## HAVILAND Products Company

421 Ann Street NW  
Grand Rapids, MI 49504-2075

**Ron Kinne**

**Technical Sales / Account Mgr.**

Ronald Kinne is a Technical Sales Account Manager for Haviland Products Company, located in Grand Rapids, Michigan. Ron joined the Haviland team in January of 2005.

He has worked in the metal finishing industry for 28 years and has developed an extensive knowledge of most forms of electro deposited metallic coatings. He started in a plating shop processing exterior spec. copper, nickel, and chrome for the automotive industry, solution maintenance and chemical control in the early 80's and then moved on into technical service/sales in 1984.

After spending nearly 20 years with the same chemical supply company based out of Detroit, Michigan and watching several name and management changes, he decided to join Haviland Products since he felt that Haviland was the only chemical supplier that still held to the belief that technical support and service were indispensable to developing strong, long-lasting customer/supplier relationships. To quote one customer, "a supplier still willing to do things the "right way" ".

At Haviland Products he has worked extensively with our product development team to develop and implement Haviland's proprietary line of chemistries to meet customer specifications and economic needs.

Ron graduated from Michigan Technological University in 1984 with a B.S. in Business Management Finance. He is a member and past president of the Grand Rapids Branch NASF. In 1988 he moved to Grand Rapids, Michigan and soon after met his beautiful wife and has two beautiful girls. He enjoys golf, tennis, and bowling in his free time.
