

HAVILAND Products Company

421 Ann Street NW

Dan Church is the Technical Sales Representative for the Eastern side of Michigan. He lives in the City of Burton. Dan joined the Haviland team in October of 2006. In his short time at Haviland he has proven to be a valuable team member.

Dan has 12 years of experience in the metal finishing industry; he has held a variety of position in quality registered plating shops. Dan started as a production worker at Midstate Plating in Flint Michigan. During this stage of his career he gained a lot of knowledge of many plating processes while specializing in zinc plating. Utilizing the knowledge he gained of machine operations he was promoted to Maintenance. While reducing machine down time and implementing preventive maintenance programs Dan was able to further his knowledge in plating chemistry. The next step in his career path was to the laboratory. He was responsible for chemical analysis, process troubleshooting, and corrosion testing. After gaining much rewarding experience as a quality manager in a QS 9000 plating shop he accepted an opportunity at Baycote Metal Finishing in Mishawaka Indiana as the General Manager. During his five years there he combined the vast experience and knowledge to coordinate all of the departments to become TS 16949 registered. All of this experience has enabled Dan to offer strong technical advice and chemistry recommendation that completely satisfy customer's needs. Many customers have found it pleasing to work with a salesman who can assist in reducing chemical costs while providing finishes that meet the strong quality standards of today's industry.

Dan's pledge is to work as a team with his customers to provide a quality service or finish for a competitive edge in today's global commerce.
