

PHOSAWAY MAX

SIZE | 64 FL. OZ.

For pools with high phosphates

FEATURE & BENEFITS

Removes high levels of phosphates
Decreases filter maintenance
Highly concentrated
Ease of use

APPLICATION

Clean filter as necessary and balance water
Add 6 ounces per 10,000 gallons of water to remove up to 1,000 ppb of phosphates
Pool water may cloud temporarily after application, especially in colder water
Circulate and filter for at least 24 hours after treatment
Check filter pressure and perform filter maintenance as needed

PHOSAWAY

SIZE | 64 FL. OZ.

Very effective formula to reduce the amount of phosphates present in water via filtration

FEATURE & BENEFITS

Specially formulated chemistry to remove phosphates
Decreases filter maintenance
Reduces pool maintenance and cost
Ease of use

APPLICATION

Clean filter as necessary and balance water
Add 16 ounces per 10,000 gallons of water to remove up to 1,000 ppb of phosphates
Pool water may cloud temporarily after application, especially in colder water
Circulate and filter for at least 24 hours after treatment
Check filter pressure and perform filter maintenance as needed

PURE-ZYME

SIZE | 64 FL. OZ.

All natural and biodegradable water additive to speed up the digestion of material in water

FEATURE & BENEFITS

Broad-spectrum enzyme
Highly concentrated
Does not affect pH
Improves water quality and clarity
Reduces filter maintenance
Product effectiveness increases as water temperature rises

APPLICATION

Clean filter as needed and adjust water balance
Apply product when pool is not in use and with pump running
Add 4 ounces per 10,000 gallons weekly to the skimmer
Use as part of a weekly maintenance program
Apply twice weekly during heavy pool use

PURE-ZYME MAX

SIZE | 64 FL. OZ.

Combination broad spectrum enzyme and phosphate remover together in one convenient product!

FEATURE & BENEFITS

Broad-spectrum, first-generation enzymes breakdown and reduces pool contaminants
Reduces and controls phosphate levels in pool water
Improves water quality and clarity
Reduces filter maintenance
Product effectiveness increases as water temperature rises

APPLICATION

Resolve any pool water issues prior to application.
Reduce phosphate levels below 1,000 ppb prior to application with PhosAway
SHAKE bottle thoroughly before use
Avoid adding if sanitizer level is above 8 ppm
Apply 6 ounces per 10,000 gallons weekly to the skimmer
Avoid superchlorinating for 1 to 2 days after application

QUICK CURE

SIZE | 64 FL. OZ.

Removes heavy deposits of non-organic contaminants in pool water.

FEATURE & BENEFITS

All-natural, cloudy water problem solver
Fast acting clarifiers speed up the cleaning process of the pool
Easy to use
Compatible with all pool systems and water additives

APPLICATION

Remove any existing algae with EPA-approved algacide
SHAKE bottle thoroughly before use
Avoid adding Quick Cure if sanitizer levels are above 8 ppm
Apply 16 ounces per 10,000 gallons weekly to the skimmer
Check filter pressure and perform filter maintenance as needed
If cloudy water persists, repeat treatment after 2 days

4-N-1 CLARIFIER

SIZE | 64 FL. OZ.

Chitosan-based, concentrated, natural polymer helps clear cloudy pool water fast. Prolonged use will eliminate oils, trace metals, and improve filter efficiency.

FEATURE & BENEFITS

Contains chitosan, derived from the exoskeleton of crustaceans
All natural and biodegradable water clarifier
Eliminates dissolved metals (iron, copper, etc.)
Removes oil, soaps and other contaminants
Improves filter efficiency
Safe & Non-toxic
Cannot be overdosed

APPLICATION

Clean or backwash pool or spa filter prior to initial dose
Add **sparkle to water**. Add 1 ounce per 7,500 gallons of pool water weekly
For **hazy water**. Add 2 ounces per 5,000 gallons of pool water weekly
For **very cloudy water**. Add 4 ounces per 5,000 gallons of pool water weekly

OPEN-CLOSE

SIZE | 64 FL. OZ.

Concentrated enzyme formulation to be used during pool openings and pool closings. Contains all natural first generation ingredients for the best quality and performance.

POOL OPENING

Circulate any new water with existing water in the pool
Balance the pH, total alkalinity, and calcium hardness levels
Apply initial dose of Di-Chlor Shock
One week later, add one quart of Open-Close directly to pool for every 20,000 gallons of pool water.

POOL CLOSING WITH COVER

Treat the pool as normal for the off-season and circulate
Drain water level to winterizing levels
Add one quart of Open-Close directly to pool for every 20,000 gallons of pool water.
Brush pool walls then cover

POOL CLOSING WITHOUT COVER

Treat the pool as normal for the off-season and circulate
One week later, add one quart of Open-Close directly to pool for every 20,000 gallons of pool water.
During extended period of unusual heat and/or precipitation, add another quart of Open-Close. This is to ensure consistent water conditions during the off-season

CHLORINE X-TEND

SIZE | 64 FL. OZ.

Revolutionary new chemistry that helps chlorine stay in water longer. This product does not build up over time.

FEATURE & BENEFITS

Extends chlorine's presence in water
Use less chlorine
Small dosages
Does not contain cyanuric acid

APPLICATION

Adjust pH and alkalinity if necessary
Add 2 ounces for every 10,000 gallons weekly
Avoid overdosing
Circulate pool for 8 hours after application

INSTANT COVER

SIZE | 1 QT. / 32 FL. OZ.

Forms invisible microscopic layer on still pool surfaces when applied.

FEATURE & BENEFITS

- Small dosage needed
- Prevents evaporation
- Saves money on water evaporation
- Works in conjunction with solar covers

APPLICATION

Shake product vigorously.
Apply directly to the skimmer.
Product is safe for all equipment.
With circulation system running, add 2 oz. per 300 sq. ft. of surface area. Apply weekly. See chart for common pool sizes.

Pool Size	Approx. Weekly Dosage
18' Round	2 oz.
24' Round	3 oz.
27' Round	4 oz.
16' x 32' Rectangle	3.5 oz.
18' x 36' Rectangle	4.5 oz.

Best uses: Apply normal dose after heavy bather load due to splash out and heavy rain. Apply twice a week in extreme heat in and out of the pool, or in drought conditions.

Nature's Care from Haviland Pool & Spa is the line of safe and effective treatment products created to utilize natural enzymes, environmentally responsible manufacturing and recycle-content packaging. The result of nearly 50 years of pool treatment know-how, Nature's Care is the ideal solution to naturally maintain the delicate balance of pool water.
